Art Unit: 1625

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims fail to recite any reaction parameters for condition for making polyhydroxyalkanoates. How these compounds are made is not recited in the claims. The mere recitation of a reactant is not sufficient to satisfy the second paragraph of 35 USC 112. Specific reaction conditions must be recited in the claims .
